

Statistical Learning Theory Olympiad

Schedule

(May 23-24, 2020)

May 23, Saturday

10:00–10:10	Welcoming + Orientation https://pruffme.com/landing/u1255311/tmp1589789981
10:10–10:30	Vladimir Spokoiny , Scientific Advisor of Statistical Learning Theory education program at HSE, professor at Skoltech, Humboldt University Detection of communities in graphs https://pruffme.com/landing/u1255311/tmp1589789981
10:30–11:00	Guest Lecturer: Mariya Tikhonova , Sberbank https://pruffme.com/landing/u1255311/tmp1589789981
11:00–17:00	Interview sessions ZOOM rooms (your specific time and link from a separate e-mail)

May 24, Sunday

10:00–10:30	Guest Lecturer: Aleksandr Petiushko , PhD in theoretical Computer Science (Moscow State University), Principal Engineer and AI Expert at Huawei Moscow Research Center, Intelligence Systems and Data Science Technology Center. Certified Robustness in Modern Neural Networks https://pruffme.com/landing/u1255311/tmp1589789981
10:30–13:30	Written examination https://go.startexam.com/skoltech
